BMC,

FYI From (b) (6) RT Marine Travel Lift does not conduct travel lift certification.

R/Shawn

Shawn,

I just spoke with (b) (6) this morning again. He reiterated that (b) (6) does NOT license operators. (See highlighted below)

Good morning (b) (6) My apology for the delayed reply. I have been out of the office for a few days.

Crane sales for US Navy applications go through the NAVFAC Navy Crane Center (NCC) in Portsmouth, VA. The NCC manages shore-side weight handling equipment. We are not typically involved in operations, other than training when the crane is installed, and occasional inspection/maintenance/parts/repair services. I'm not directly familiar with the sectors of the NCC that are involved with operations, nor with on-site

operations. I believe the NCC is the proper resource for certification.
Their website is-

https://www.navfac.navy.mil/navfac_worldwide/specialty_centers/ncc.html

As (b) (6) mentioned below, we can certainly provide operation and maintenance training, but we do not provide the certification. This would be through the NCC as I understand it. While I do have some contact there, they are in new equipment procurement rather than operational. If you are unable to make the connections you need through the website let me know and I can try to dig up a route through the maze. The NCC is not an especially large group, and I'm sure they are familiar with your site, equipment, and requirements.

Regards,

(b) (6)

Hello (b) (6)

Wondering if you could help me on a situation. I need to get a certified crane operator to come to GTMO in order to be able to lift a boat in case of an emergency.

Your company representative would work if I had a NCCO crane operator here. He would give him the familiarization on the travel lift. But we still need a NAVAC licensing official, in which I am trying to find.

If your organization has sold a MT Lift to a Navy Organization and knows of anyone that is certified to operate them, I would appreciate a contact #.

Thanks,

(b) (6)

I don't think I have it. There is a number but it may be a Navy designation but here it is: MTL-1

Greetings (b) (6)

We would be happy to assist. Could you please provide us with the serial number of the machine?

Thank you,

(b) (6)

Subject: Operator & OEM Manual for 300 Ton Travel Lift

Good morning, my name is (b) (6) and I am a contractor for the US Navy.

We will be operating and maintaining a 300 Ton Marine Travel Lift for the U.S. Navy in Guantanamo Bay, Cuba starting June 1st.

I would like to request access to the Operators Manual for the Marine Travel Lift as well as a quote for a Marine Travel Lift operator to come to GTMO and train our operator on the use of it.

Crane Model #: 300BFM

Year of Make: 1991

Thanks,

(b) (6)
